

Agenda Item Number: 2006-5-6F

BERNALILLO COUNTY BOARD OF COUNTY COMMISSIONERS

Meeting Date: May 9, 2006

Department: Technical Services **Staff Contact:** Tim West, Deputy County Manager for
Public Works
Roger Paul, Technical Services Director
Brad Catanach, Engineering Manager

TITLE: Maryetta Storm Drainage Improvements Project

ACTION: Motion to authorize:

1. The County Manager to award RFB #0011-06-RS and execute the construction contract for the Maryetta Storm Drainage Improvements Project.
2. The County Manager to sign the infrastructure improvement agreement with the Albuquerque Bernalillo County Water Utility Authority.

SUMMARY:

The Maryetta Storm Drainage Improvements Project is located in the Adobe Acres subdivision in the South Valley. The project will provide storm drainage pipe, inlets, curb and gutter, and road improvements for Maryetta and Camino Alameda roads. The new storm drainage system will tie into the existing Adobe Acres storm drainage system. The estimated construction cost is \$486,000 and the project will be funded with County bonds. The Albuquerque Bernalillo County Water Utility Authority has appropriated \$33,000 for the project to upgrade existing water services in the project area. The project design is complete.

In order for Public Works to expedite this project and to mobilize the contractor prior to the early summer monsoon season, staff requests that the Board authorize the County Manager to award RFB #0011-06-RS and to execute the construction contracts, with the lowest responsive and responsible bidder, once all the required bonds and insurance have been provided by the selected Contractor. The project will be advertised and bids opened in May 2006. Construction is anticipated to begin late May 2006, with completion expected in 120 days.

STAFF ANALYSIS SUMMARY

COUNTY MANAGER

See summary. I recommend Board approval. TL 5/4/06

DEPUTY COUNTY MANAGER FOR PUBLIC WORKS

This infrastructure project will provide storm drainage to the area of Maryetta and Camino Alameda in Adobe Acres. The remainder of Adobe Acres has received phased storm drainage improvements since the 1990's. The design of the system has been completed and the request for bids for construction is in the advertising period. Upon the Board's approval the County Manager will award the bid for construction to the lowest responsive bidder and execute the construction contract to enable the construction project to begin in May. The ABCWUA has provided funding and requested that the project include the replacement of water service infrastructure it has deemed necessary. The project is scheduled for completion within 120 days after notice to proceed is issued. I recommend approval. TW 4-27-06

LEGAL

No comment necessary at this point.

FINANCE

Budget	The funding is available in the Storm Drain Bond Fund-BC21. Approval will allow the department to move forward with this project. Amy Childers, Financial Services Administrator 4/27/06
Purchasing	Purchasing will assure proper procedures are followed for the solicitation, evaluation and award of the RFB for the Maryetta Storm Drainage Improvements Project. R. Suazo, Purchasing Administrator 4/28/06
Contracts	A Contract Control Number will be issued upon receipt of a final executed construction contract for the Maryetta Storm Drainage Improvements Project. 4/28/06
Risk Management	No comment necessary.
